LITTER INFORMATION FORM

JACK RUSSELL TERRIER RESEARCH FOUNDATION

To contribute samples to the JRTRF DNA Bank, please fill out this form.

You will need a correctly formatted (sire on top, dam on the bottom), typed pedigree (3- to 5- generation) of the litter. The breeder of the litter, should make a "Litter Packet" for each litter - that consists of the *Litter Information Form*, *Genetic Data Form*, and the *Pedigree*.

For the **Litter DNA Bank ID Code** use the kennel name or breeder name, plus the date of birth of the litter, so if Pat Doe had a litter born May 15, 1992, the code would be "Doe 05-15-92". The DNA Bank ID code is a way to tie your DNA and data together and connect individuals into the families where they belong. This ID code should be on each form sent in.
